

## Round Valley Public Library Commons

In addition to our lovely library we have several other features to offer the community. The building includes the only public restrooms in town, decorated with hand painted tiles by students of Round Valley and community members.

We have a certified commercial kitchen in which we hold nutrition classes and offer use of it to the community to fill a wide range of food preparation needs. Our coffee shop makes use of the kitchen to prepare wholesome and delicious meals as patrons visit in the Community Room Lobby or log into our free internet service.

In sunny weather our Farmers Market is held under the spreading branches of our walnut orchard and in inclement weather it moves under the vaulted ceiling of our spacious covered patio. Both the patio and the walnut orchard are hosts to a variety of musical events as well.

Our Community Room features a large fireplace with metal doors designed and fabricated by our local blacksmith in a Native American pattern. The Community Room is host to a wide range of gatherings and is rented out on a sliding scale. It is used for County and District meetings as well School Board, Chamber of Commerce, and Sheriff's meetings. Individuals use it for parties, religious services, and family gatherings. It has the added advantage of having the commercial kitchen nearby for catered affairs.

And let's not forget that KYBU radio is our cornerstone, freshly remodeled and painted, up and running to serve the community of Round Valley twenty-four hours a day, seven days a week. It offers over eighteen community produced programs!
